Original Papers

Aydan, Ö., Shimizu, Y., Ichikawa, Y.: The Effective Failure Modes and Stability of Slopes in Rock Mass with Two Discontinuity Sets 163

Azzam, R., Yuen, S.: The Theory of the Recoverable Linear Strain Sensor and Its Application in Geomechanics 51

Bloyet, J., Beghoul, N., Ricard, Y., Froidevaux, C.: In Situ Test of a Borehole Extensometer 289

Brown, E. T., Bray, J. W., Santarelli, F. J.: Influence of Stress-Dependent Elastic Moduli on Stresses and Strains Around Axisymmetric Boreholes 189

Dowding, C. H., Su, M. B., O'Connor, K.: Measurement of Rock Mass Deformation with Grouted Coaxial Antenna Cables 1

Flaria Santos, C., Bieniawski, Z. T.: Floor Design in Underground Coal Mines 249

Ghosh, A., Haupt, W.: Computation of the Seismic Stability of Rock Wedges 109

Lajtai, E. Z., Gadi, A. M.: Friction on a Granite Interface 25

Mróz, Z., Nawrocki, P.: Deformation and Stability of an Elasto-Plastic Softening Pillar 69

Pang, S. S., Goldsmith, W., Hood, M.: A Force-Indentation Model for Brittle Rocks 127

Pang, S. S., Goldsmith, W.: Momentum and Energy Processes During Jackhammer Operation 205

Wolter, K. E., Berckhemer, H.: Time Dependent Strain Recovery of Cores from the KTB — Deep Drill Hole 273

Technical Notes

Gaviglio, P.: Longitudinal Waves Propagation in a Limestone: The Relationship Between Velocity and Density 299

Gentier, S., Billaux, D., van Vliet, L.: Laboratory Testing of the Voids of a Fracture 149

Xing, Z.: A Two-Dimensional Model of En-Echelon Jointed Rock Masses with Multi-Discountinuity Geometry Parameters . 231

Book Reviews 65, 159, 243, 307

Announcements 67, 161, 247, 309
